

## Activity 5a: Selecting Science Materials

### Section 3: Setting the Stage

When setting up a Science Center, you must think about **location** of the center, the **materials** that should be readily available for the children to use and **themes** that are “science-friendly” and tied to the curriculum. List your ideas for each topic in the boxes below.

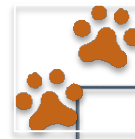

Location

- 
- 
- 
- 
- 

Materials
